Reasons and description of the product adaption

IDS has passed a couple of new certifications (e.g. KC, RCM, UKCA). There is no space left on current labels to print all certifications besides camera match code, QR code, serial number, etc. any more.

The label content and size changes depending on the camera model.

Form fit and function of the camera does not change.

Recommended action for customers

No action required by customer if the product is not certified in a medical device. If this should be the case, please contact our sales for an evaluation sample.

Date of change

This product change takes place from December 1st 2021.

New Labels

The sample label images below are likewise, illustrations may differ depending on the camera model. The sample label images show the maximum of achievable logos, symbols and text.
